

Note by Copiah. This copy is compiled from two separate plans, both of the year 1797, between which there is no difference except in outline and location of ponds. All words, figures and numbers here shown in black being from Plan Page 9, Vol. 17 "Man Mole Plantation". The figures, words and numbers in green are from Drawing Page 10, Vol. 20 of the same. The latter drawing was presented with the petition for incorporation in 1797. Neither of the plans show the name of the Surveyor, date of survey, nor is explanation given why the quality of land in the several lots should be designated as above. J.M.C.
